Client	Structuretone (UK) Inc
Main Contractor	Structuretone (UK) Inc
Engineer	Norman Disney Young
Architect	Aukett Associates
Duration	3 months
Value	£1.40m

Description

The project involved the removal of the cores to the old gin distillery and converting it to a state of the art communication centre. Our package included underpinning & extending the existing basements and forming foundations in confined spaces. Other works included basement & ground level services, hard landscaping and the construction of intermediate floors. The finished structure provides a mix of modern design in the cores whilst maintaining the buildings character behind a listed retained façade.
