

Market Sector	Commercial
Site	Regents Quarter London NW1
Main Contractor	HBG Construction
Duration	30 weeks
Value	£1.2m

Description

This major regeneration scheme directly to the east Kings Cross railway station set new buildings sensitively amongst restored Victorian warehouses and other industrial buildings. The new buildings are of a similar scale to the Victorian warehouses and use a sympathetic palette of materials to remain in keeping with them. The blocks are linked by a network of pedestrian routes and interspersed with courtyards.
