

# Leyton PFI School Leytonstone

O'KEEFE

Market Sector	Eduation
Site	Leyton PFI School, Leytonstone
Main Contractor	Wates Construction
Duration	52 weeks
Value	£1.6m

### **Description**

Under our mobile plant licence the O'Keefe Group carried out the Soil Remediation of this former industrial complex and installed a 1 meter soil stabilised raft on top of vibro compaction piles. This allowed radical redesign of the original proposed foundation plan enabling large savings to be passed back to the client.

A more detailed case study produced in association with the British Cement Association is attached for further technical information.

O'Keefe Construction went on to complete all the drainage, groundworks and external works to this PFI school
