Duration	20 weeks
Value	£1.75m

#### **Description**

O'Keefe Construction was employed to undertake the construction of the VIP Access Roads and lake views. The access road was to be a prominent feature in the final design of the building as this was the first view the VIP guests who attended the facility would get of the building. The lakes had a secondary function of being used to cool the building and an advanced filtration systems made up of various aggregate elements was sourced from Europe.
