Market Sector	Residential
Site	Brentford Lock
Client	St George plc
Main Contractor	St George
Engineer	JSA Associates
Architect	Charter Partnership
Duration	66 weeks
Value	£4.60m

Description

We were employed to carry out the enabling works and cofferdam sheet piling. Access road and construction of deep basement including bulk excavation and raft slab construction. Following this was the construction of the Insitu RC structures, transfer slab and superstructure. Externally we carried out the construction of the new river wall including the piling and finishes to this section and bridge foundations and abutments. We were also involved in the remediation and formation of an ecology flood plain.
